- Phone: +52 33 2820 6535
- Address: Av tabachines 252 Nuevo Vergel, 45180 Guadalajara
- Date of Birth: August 11, 2004
- Location: Tyler, Texas

## Skills

Problem Solving

Adaptability

Teamwork & Collaboration

Responsibility & Commitment

## Languages

- **Spanish:** Native
- **English:** Intermediate

## Profile

Computer Engineering student with prior technical training. I am interested in technology development and continuous learning. I consider myself a responsible person with initiative, willing to adapt, work in a team, and continue growing personally and professionally.

## Experience

## **Systems Auxiliary**

CODE Jalisco, Guadalajara | Aug 2024 – Aug 2025

- Provided hardware and software support and troubleshooting.
- Installed DVR security cameras.
- Resolved issues with telephone lines.
- Troubleshot network problems and installed new networks.
- Configured and installed printers.

## **Administrative and Technical Support**

SEP (Secretariat of Public Education) | May 2022 – Aug 2024

- Managed administrative tasks, including entries and exits, and warehouse administration.
- Provided hardware and software support to users for computer equipment.
- Handled printer configuration and other related tasks.

## **Education**

### **Computer Engineering**

UNE | Aug 2022 – Present

- Currently a 7th-semester student.
- Solid knowledge in programming fundamentals, data structures, databases, operating systems, computer networks, and computational logic.
- Familiar with web development, systems modeling, computer architecture, and algorithm analysis.
- Strengthened technical skills and efficient problem-solving abilities through various academic projects.

### **Programming Technician**

Cetis 14 | Aug 2019 – Aug 2022

- Technical training focused on software development, programming logic, and databases.
- Reinforced practical skills in the analysis, design, and construction of IT solutions, including the use of basic development and testing methodologies.
